# Report of Superintendent of Schools

---

To the Superintending School Committee and Citizens of Hartland:

I herewith submit my annual report of the condition and progress of your schools.

There have been two changes in the teaching force during the current year. Mrs. Evelyn Hogan was appointed to the vacancy in the Eighth Grade and Miss Gertrude Davis succeeded her as teacher of the Fuller's Corner school. The schools, teachers, wages per week and enrollment are shown in the following table:

School	Teacher	Wages	Enrollment
Sub and I	Nina F. Stevens	\$18.00	44
II and III	Ella B. Getchell	18.00	36
IV and V	Mary A. Connelly	18.00	43
VI and VII	Ada C. McCrillis	18.00	36
VIII	Evelyn F. Hogan	16.00	29
Fuller's Corner	Gertrude V. Davis	16.00	30

The enrollment of 218 is three more than for last year. It is surprising how the enrollment in our schools holds up in spite of lessened industrial activity.

Miss Gertrude Thorne has continued as supervisor of music. The work is being well coordinated and improved in quality steadily. A combined music festival was held in May with the music departments of Newport and Hartland Academy cooperating. These festivals were well attended and gave an excellent demonstration of the effectiveness of the instruction in the secondary grades.

During January our schools were visited by Miss Zeta I. Brown, field agent for rural education of the State Department of Education. The work of all the teachers was observed and complimented highly by Miss Brown. This was very gratifying as an intensive effort has been made by both teachers and superintendent to improve the quality of instruction.

Through the cooperation of Dr. C. E. Norcross the pupils of all the schools were given a dental examination last spring.

The results showed a somewhat high ratio of defects, probably as a result of economic conditions.

A somewhat extensive program of repairs has been undertaken during the past season. The damage to the Pleasant Street building caused by the fire was repaired so far as funds permitted. A new roof of fire-resisting material was laid. This will prevent further fires from sparks on the roof. The building should be painted on the outside this coming year.

A new roof of fireproof materials was laid at Fuller's Corner and the interior of the building was painted. Late in the fall an allotment was secured from the FERA for work on this building. The whole building was raised and placed on cedar posts and the yard graded. This has been a great improvement. The excellent cooperation of the selectmen and especially of Dan E. Connelly, Federal Administrator, is greatly appreciated.

A rearrangement of the piping of the heating system of the Academy has improved the situation somewhat. A boiler of larger capacity and with more radiation would be more economical in operation and would make possible the adequate heating of the building in extreme weather.

Bills now before the Legislature offer substantial hope for the real estate taxpayer and for the equalization of educational opportunity and the support of the same. These bills are the outgrowth of the work of the Maine Public School Finance Commission. This group of distinguished citizens was appointed by Governor Brann to investigate the financing of schools. Their report has been widely distributed and discussed. The necessity for a broader tax base for the schools as well as for all state purposes was recognized by this commission and also by the Commission on Taxation. This matter is of vital importance to this town and to every town and city in the state. I believe that if the Legislature can be made to understand the feeling on the part of the people in general that these bills will be enacted into law. I respectfully urge all who desire lower tax rates to get in touch with our senators and representatives in the Legislature by letters, telegrams and personal interviews and urge them to support these measures.

In order to bring all bills up to date for the new accounting system it has been necessary to pay for thirty-eight weeks of school during the past municipal year. In spite of this extra two weeks it has been possible by careful planning and management to maintain the schools for less money than last year, the reduction being approximately \$250.

Last year the music account was combined with the common school account since for purposes of the State Department of Education the music teacher is considered to be a regular teacher. Therefore there will need to be no special appropriation for music.

The School Committee and Superintendent have gone over the probable expenditures for next year very carefully. The following amounts are recommended: Common schools, \$5,400.00; repairs, \$200.00; school committee, superintendence, insurance, \$650.00; school physician, \$100.00.

The work at the Academy has moved on smoothly and efficiently this year under the direction of the able corps of teachers, Principal Cecil J. Cutts, Harold W. Louder, Miss Frances E. Stevens and Miss Selah Richmond. Some changes in the curricula have enriched the course for those who will not go to college. Courses in bookkeeping and fundamentals of mathematics have proved themselves popular and valuable. The extracurricular work has been excellent, especially the work in music, debating and basketball. Due to funds received as an academy and income from invested funds Hartland Academy has furnished to the pupils of this and surrounding towns a better than average program at less than cost.

I am grateful to the teachers, pupils, parents and citizens in general for the excellent support they have given the schools during the past year.

Respectfully submitted,

WALTER J. RIDEOUT,

Superintendent of Schools

Town Average 97.9

The Fuller's Corner property has been improved by raising the building and grading around the house. The interior remains the same. The greatest fault is relation of the windows to the requirements of the room. The school property of the town is in excellent physical as well as sanitary condition.

No serious amount of illness or other health disturbing conditions noted during the year. The health inspections have been mostly of a chronic nature.

81

The pupils show an active interest in being tidy and healthy thereby reflecting an active interest at home.

## Preserve This Report

---

A sufficient number of these reports have been printed to furnish every interested citizen with a copy. An effort has been made to get them into the hands of the voters in advance. It should be borne in mind that if copies are left at home there may not be a sufficient number at the hall to go around on town meeting day. This year or any year it is desirable for you to have a copy of the annual report as soon as issued. It is also important for you to preserve it and bring it with you town meeting day morning.

Dinner will be served in the basement of Opera House  
at 12 o'clock by the Ladies' Aid of  
the Methodist Church at  
25c per plate
